**Myth:** Pot is harmless. People who drink alcohol and smoke cigarettes are harming their bodies but pot doesn't harm you.

**FACTS:** Studies have shown that people who smoke pot spend more time in the Emergency room, hospital admissions, length of hospital stays and doctor visits THAN PEOPLE WHO DO NOT SMOKE POT! Studies have also shown that pot DOES increase the risk of injury, fights, arguments, crime and car wrecks. Comparing your addiction with someone else addiction does NOT prove that your addiction is more acceptable. Marijuana may be Natural but it's a Natural POISON.
