

Sermon Transcript: 10 Horns of the Beast are NWO Businessmen

July 29, 2022

Praise God. God is good. Amen. Amen. Praise the Lord.

Thank you.

Praise the Lord.

Praise the Lord.

Started out pretty good. Ended a little bit weak, but praise the Lord. Amen. Praise God. Praise Jesus.

I'm thinking, I look to my right and I see this table and I'm like, I want to enlarge this table twice its size.

Then I turn to my left and here I've got tables right here with room on it.

I just got to figure out how to sort some of this stuff over there, over there, over there, over there.

There's a song that says over there. Praise God.

I have to be a little bit silly and a little bit chaotic because I'm not fully awake.

It's early for me somewhat. So it's good to be alive. Amen. Praise God.

Well, I would. I would that there would be a lot more people listening. But that's the way it always is on the New Moon.

People are at work. It's not a Sabbath. People are at work.

So I understand that not everybody can tune in for the live services on the New Moon.

But the church is growing and we'll have more and more people as God brings them in his timing.

But the problem is not God's timing, but rather the problem is there's a lot of people that are being called that are not answering the call.

But as God continues to call people and as the time approaches closer and closer to the Great Tribulation, more and more people will wake up and more and more people will come out of their complacency and come more into obedience to our Lord, our God, our Savior, Jesus Christ. Amen.

We know this is true, that pressure and tribulation causes people to rise to the occasion of repentance.

That is the fact of the reality. Amen. OK, let's go in prayer.

Lord Heavenly Father, happy first day of the fifth biblical month.

Thank you, Lord Heavenly Father, for getting us through the previous month and all the other months of this year thus far and all the years of our life.

Thank you, Lord, for preserving us, preserving us, protecting us and having mercy upon us.

Thank you for calling us out of the world to be separate, to be separate and different and distinct from the world.

Praise God. Thank you, Lord. Thank you for this new day, this new month and new understanding and new revelations.

Thank you, Father, for continuing to teach us and for continuing to deliver us from misconceptions and false doctrines of traditional religion.

Please continue, Lord, to show us the truth and help us to understand.

We know, Father, that this message today will not return void nor vain, but shall accomplish

the purpose of which forth you are sending it.

You are God of Gods, King of Kings, Lord of Lords.

You are the Almighty, the first, the last, the beginning and the ending, the Alpha and the Omega, the Almighty God.

We praise your holy name and we ask you, Lord, to please help me to deliver this message with the energy, with strength, with passion, with integrity, but most importantly, with the Holy Ghost.

In the name of Jesus Christ, we accept it in Jesus' name. Amen. Amen. Amen. Praise God.

You may be seated. Let's turn to the Book of Revelation, Revelation 17. Praise God.

God is good. As everybody turns to Revelation 17, I'm going to go get something and be back in a minute.

Revelation 17.

Now, for the new people that might be listening for the first time, we're reading from the Alpha and Omega Bible, published by I Saw the Light Ministries.

Revelation 17, verse 1.

"Then one of the seven angels who had the seven bowls came and spoke with me, saying, 'Come here, I will show you the judgment of the great harlot or the great whore who sits on many waters.'"

Now, in prophecy, the word waters many times is a symbolism for nations, nations, many nations.

However, sometimes, many times, prophecy has two meanings.

So we say dual meanings. Is that D-U-A-L? D-U-A-L, dual meanings, meaning two meanings.

I believe with the growing understanding, I believe that God has given us growing understanding of the scriptures and of prophecy, especially as we see things evolve in front of our eyes as well, seeing the fulfillment of prophecy, seeing how things are evolving and developing in the world, as well as God releasing revelations and the seals and opening up our understanding as the time comes closer, culmination of these things.

Waters, in this case, I believe is not only nations, but even the oceans and the seas, locations, as well as meaning that this beast power, this woman, this false religion and this governmental system, it is over all the nations, all the oceans, over the earth.

But more specifically, more specifically, even a specific location.

The topic of today's sermon is actually two related topics.

And we're going to talk about the ten horns of the beast, also known as the ten toes in Daniel 2, but also as the ten horns here in the book of Revelation.

And those ten horns of the beast, who they are, a new understanding, an increased understanding, even a revelation about who they are, as well as we're going to talk about an update on the city of Babylon, an end time city of Babylon being built in the Middle East right now, an update on that progress of that city.

So since we're going to talk about people, the ten horns of the beast and update on the building of the city of Babylon, we can get into some synthetics of location.

Now, a lot of people think America is Babylon.

And we have a sermon not that long ago that proves that America is not Babylon.

Although the entire world, including America and every nation on this globe, the entire world is in captivity to a Babylonian system, a Babylonian system of religion and politics and everything that is in this world is under captivity to Babylonian things, Babylonian in many

different ways.

But specifically, America itself alone is not the city nor the nation of Babylon and neither is New York City or Washington, D.C.

We've proven that we've got information on the website as well as that recent sermon.

So right now they are building the city of Babylon in Saudi Arabia.

And they don't call it Babylon, of course, they call it NEOM.

Yeah. Oh, yeah. That's an abbreviation for four words. I didn't write it down. Don't remember it.

But I don't think you remember either. I. Oh, right.

It's a combination of two words, actually.

Vibrations for the or actually maybe it's the first two letters of each or something like that.

But whatever it is, it means new future. Yeah, I think it is the new future. [Neo = "New" + Mustaqbal = "Future"]

Basically, the sci-fi dream of what they've always dreamed to build.

Really, it's the end time entire Babylon.

What they always dreamed to build, what they always wanted to build.

The end time tower of Babylon, the end time city of Babylon. Amen.

So a sci-fi coming true, the new future. Amen.

So I'm not going to deal with a ton of proof today that it has to be in Saudi Arabia, but I will deal with a little bit of proof about it and get more specifically into the ten rulers and more specifically into the updates about the city itself that they are building.

But for additional proof and much more detailed proof that it is that particular city in Babylon, then you need to go to the article on the website and isawthelightministries.com/babylon.html

I see our brother in Korea is listening live. Praise God.

So that does my heart a lot of good to see him listening live and others will be tuning in later, I'm sure.

Now, so I'm not going to get into a lot of detail proving it's Babylon, but I will cover it just slightly.

But it says here, many waters. If you think of Saudi Arabia, how it appears on the map of the world, Saudi Arabia is surrounded the nation of Saudi Arabia, or at least the continent of Saudi Arabia has the Persian Gulf on the East Coast, the Red Sea on the West Coast, and then you just have the smaller nations of Yemen and Oman on their southern coast, which is also surrounded by the Gulf of Aden and the Arabian Sea in the Indian Ocean.

If you look at the continent or the portion or the peninsula that Saudi Arabia sits on, it looks like a continent of its own, of which that continent is like 80 percent, 90 percent surrounded by water.

And then it's only a few miles on the northern border, just a few miles of land until you get to the Mediterranean Sea.

So they are on the world map, sitting on many waters.

And now, verse two, "with whom the kings of the earth committed fornication or immorality, and those who dwell on the earth were made drunk spiritually," (talking spiritually, prophetically,) "with the wine" — spiritually — "of her immorality. The kings of the earth committed immorality with her."

How many times have we seen Trump and other leaders of the world, all across the world, traveling to Saudi Arabia, even Biden within the past two or three weeks, traveling to Saudi

Arabia, shaking hands, making deals, making pacts, agreements left and right and left and right, and begging Saudi Arabia for oil.

Now, with the new city, Saudi Arabia is trying to transition away from the oil industry over into the green new deal, the green deal, as the New World Order calls it, the green deal, as the Democrats call it, the green deal, the green agenda, carbon-free, carbon, carbon-less energy, trying to get away from what they call carbon energy or carbon fuels, oil and petroleum and coal, trying to get away from all those things and transitioning over to both electric cars and no cars, and over to more solar energy and windmills and whatever else that they have out there that they're trying to replace it with.

So that is also part of the fornication or the immorality that is with Saudi Arabia, with the kings of the earth.

We did not really realize the participation of Saudi Arabia with the green deal or the green agenda.

We did. We've traditionally always thought of Saudi Arabia as an oil kingdom.

But that was not always the case, of course, because oil on a commercial level didn't come about until the very late 1800s and early 1900s.

So before that, they had other industries, which we're going to talk about here in a minute as we keep reading.

I don't want to jump ahead too much, but they are transitioning away from oil over to the green agenda with this new city of Babylon that will supposedly not have anything petroleum as far as energy goes.

So they're committing fornication, immorality with the Democrat Party in America and George Soros and the other Bill Gates and the other New World Order green agenda people, environmentalists, all cooperating really in this new city of NEOM, this end time city of Babylon.

It is immorality, fornication as a plan to reduce the world population and move people out of different regions and push people into a corner into these new cities in Saudi Arabia and even encouraging people all around the world to move there, to be part of that.

Now, we're continuing in verse three, "And He carried me away through the spirit into a desert."

Some translations say wilderness, but the word wilderness in this context does not refer to a forest, but rather it means a deserted place, a place of sand, not necessarily a place of sand, but a place of a low population where people do not dwell is the more proper definition.

It is a deserted place, a place where people do not dwell.

And if you think of the globe, where are, where do people not dwell is mostly in the desert.

And so it would be really the most appropriate translation, as it says in the AOB, that John is taken into the desert to look at this city, not into a forest, but into a desert. Amen.

Now, a lot of people think that city of Rome is Babylon or New York, but New York and Rome, both in Washington, D.C., both are not in the forest and not in the desert.

And neither are they in places that were previously not populated in recent times.

Really, the city of Babylon of NEOM in Saudi Arabia is the most perfect fit of this description. Amen.

"And I saw a woman sitting on a scarlet evil beast full of blasphemous names."

Blasphemous names. We know in this ministry that blasphemous names in religious context,

because this is absolutely in religious context, come on now, is those Y names, which are very prominent in the Arabic languages. Amen.

That is the origin of the Y letter names is the Assyrian Babylonian culture and language and location.

That's the origin of it. So there can't be really any doubt that this is another clue of the Middle East and of people who speak Arabic and where the Y names are very prominent and the origin of those Y names being the Middle East, having seven heads and ten horns. We know that the seven heads refers to actually a symbolism of empires over time, empires over time, including the Roman Empire, which does have a part in this city and in the beast power and the governmental power, the Catholic Church.

We can't leave out. We don't deny the involvement of the Vatican and the Popes and all that and the Roman Catholic Church.

We don't deny their participation and their part in it as being one of the heads and as being the two horns of the false prophet.

But the Antichrist himself, what the Bible actually calls the son of perdition, is not Saudi Arabian, but rather Syrian, because all this heads all the way back to Nebuchadnezzar and Nimrod and Nebuchadnezzar's ancestry, which all points to the Assyrian Kingdom and the revival of the Assyrian Kingdom, which will accomplish Saudi Arabia.

So when we talk about the city of Babylon being in Saudi Arabia, I'm not saying that the king of Saudi Arabia or the prince of Saudi Arabia, I'm not saying that he is the main Antichrist, but what I'm saying is that the Assyrian Antichrist, which is the origin of all these evil things, the Trinity, Christmas, Easter, the blasphemous names and more, all originating from Assyria.

The Bible says that God will give Assad, the wild beast, all nations, all nations of the earth, including Saudi Arabia, will be given to Assad.

So Assad will be the king over earth of the Assyrian Empire, including Saudi Arabia.

So Assad will have power over Mecca, over Saudi Arabia, over NEOM, it will be given to him.

Now we're going to talk some more about these ten horns. Once the scriptures themselves, once they bring up the topic again, we'll also talk about it again.

But let's go as the scripture flows. Verse four, "The woman, the city, was clothed in purple and scarlet and adored with gold and precious stones and pearls, and having in her hand a gold cup full of abominations and of the unclean things of her immorality."

Now, gold and precious stones and pearls and a gold cup. As I said earlier a minute or two ago, Saudi Arabia was not always the oil kingdom.

So I was looking and doing some research and it turns out that the Gulf nations, including Saudi Arabia, were extremely famous for pearls and precious stones.

Saudi Arabia previously before the oil industry and even in the early days of the oil industry and even up probably up until even the 1960s or 70s, whenever it was that the elites gave control of the oil prices to the Middle East up until that decade.

The oil prices for the whole world used to be controlled in Pennsylvania, in oil city, Pennsylvania.

I was there. I used to live there at one time, oil city, Pennsylvania, where they founded oil, where they discovered oil in that region.

They first started commercializing oil and pushing oil to the whole world and developing and developed and created the companies of Penn's Oil and Quaker State and all those oil companies, all pretty much all of them invented in Pennsylvania.

So I know that history very well, having lived in that exact region and exact town where a lot of that occurred.

So it wasn't until the 1900s and middle 1900s that they eventually gave control to the Middle East.

Now, up until that point, Saudi Arabia was very popular and famous and well known for pearls and precious stones.

Now, Saudi Arabia is wanting to get away from the oil, therefore, they are returning to promoting their fame of pearls and precious stones.

Now, it also talks about a gold cup here, and we know that that is primarily, mainly symbolic, just an imaginary cup.

However, I discovered that only in these last three years, Saudi Arabia has been pushing the gold cup of horse racing as another way of getting away from the oil industry.

They're finding all the other industries to become famous and make money on.

They want to make money on and become famous for all kinds of other things rather than oil, including horse racing.

So in this year, 2022, last year, the year 21 and the previous year 2020, beginning in 2020, they have what's called the Saudi Cup, which is being promoted as the number one world horse racing competition of the largest prize. I think it was not even 20 million.

Don't quote me on that, whatever it was, two million, 20 million, whatever it was, the largest prize in the world for horse racing.

Now, they had horse racing even before 2020 in multiple locations in Saudi Arabia.

They were already doing it. But in 2020, they had the Saudi Cup for the first time, that particular race for the first time, promoting it as being a larger, more competitive, more famous horse racing over and above all the other horse racing in their kingdom, as well as promoting it on the world stage. And people all around the world can come and compete in horse racing.

However, the first two years, maybe even all three years, I'm not sure, but at least the first two years, the winners of the race were Saudi Arabians.

Do you really believe that there's going to be fairness in Saudi Arabia? Come on now.

But traditionally, across the world, when you think of horse racing, you do think of the gold cup.

You also think of the gold cup as well with even with the sailboat racing, I believe, as well and other things and other sports as well.

But we're not going to ignore the gold cup of racing either, especially since the Bible talks about four horses and how Hitler was fascinated with horse racing and car racing. He was.

So I believe that the theme of horses and horse racing is something that continues down the line of the symbolism and the prophecies and things that are clues.

Verse five "And on her forehead, a name written, a mystery, Babylon, the great, the mother of harlots and of the abominations of the earth.

And I saw the woman drunk with the blood of the saints and the blood of the witnesses of Jesus when I saw her and I wondered with great wonder."

And we know that Saudi Arabia is famous for martyrdom and beheading of Christians.

And we know that the majority of so-called Christians in the world are not true Christians. However, that is still a clue.

It does let us know that Saudi Arabia is famous for beheading, which we know is directly

connected with the mark of the beast.

And that it is Islam, which Saudi Arabia is the capital of Islam.

It is Islam which is the number one religion in the world for beheading known for beheading.

So a lot of very strong clues.

And if they're going to martyr anyone that calls himself a Christian, anyone that claims the name of Jesus, then so will they not only kill the fake Christians, but even the true Christians. They do kill and will kill.

Then it comes to verse seven.

"And the angel said to me, 'Why have you wondered? I will tell you the mystery of the woman and of the evil beast that carries her, which has the seven heads and the ten horns.

And the evil beast that you saw was and is not and is about to come up out of the abyss and to go to destruction.

And those who live on the earth, whose names have not been written in the book of life from the foundation of the world, will wonder when they see the beast that was and is not and will come.'"

In other words, it is a revival, a return of an ancient power.

Now, the Roman Empire has not gone away.

People think it went away, but the Roman Empire never went away.

Because even in the United States and Australia and England and the UK and many places around the globe are still using the Roman Empire calendar and determination of days and what they call the days and how they count the month and determine the month, how they determine the year.

And so if we are living our daily lives based upon a calendar that is the Roman Catholic Empire calendar, we cannot say that that empire doesn't exist when the Vatican still exists.

And the Vatican is the capital city of the Roman Empire today.

They do proclaim that the Pope is a king and has the throne of a king and the ring of a king and the power and the authority of a king and the mitre, M-I-T-R-E, something like that.

Mitre.

Mitre of a king and the staff of a king and the crown of a king.

So if you get all these things, it's still a king and it's still a kingdom and it's still an empire.

The Roman Empire never went away.

Amen.

And especially now that we have the European Union as well, that is a fruit of the Roman Empire.

It is a sign and a clue of the Roman Empire.

And we do not deny the Roman Empire's existence and involvement with the Antichrist and the false prophet, the beast and the city and all these things.

They're all connected.

Amen.

So revival of the Assyrian Empire, verse nine, "Here is the mind which has wisdom.

The seven heads or seven mountains on which the woman sits."

Now, we also recognize that seven heads are empires.

And the word mountains in the Bible is a symbolic word for kingdoms or nations.

But this is not just seven nations or seven empires that have come and gone, but it is also literally, as we said, dual meaning, two meanings.

It is literally also mountains.

We also know that Saudi Arabia does have a system of seven mountain ranges around Mecca or maybe the whole kingdom.

I'm not for sure how that works out, whether it's just around Mecca or throughout the kingdom.

But I have whatever that is documented on the Internet, on that website.

And verse 10, "And there were seven kings (or seven ancient empires)."

Five of those were fallen during the time of the writing of the Book of Revelation.

Five previous empires have come and gone.

"And yet one was still existing."

The Roman Empire was still existing.

"And then the other has not yet come."

So that's the revival of one of the ancient empires.

"And when he comes, he must remain only for a little while," meaning only the three and a half years of the Great Tribulation.

Verse 11, "The evil beast, which was and is not, is himself also an eighth and is of the seven.

And he goes to destruction."

So again, that means a revival, a return of a previous empire.

Verse 10, "The ten horns which you saw are the ten kings or ten rulers or princes who have not yet received a kingdom, but they received authority as kings or like kings with the evil beast, (with Assad,) for one hour."

The word one hour, the phrase one hour is also just only symbolic and not literal at all.

This is one case where it does not have two meanings.

It is not literally one hour whatsoever at all, but only totally symbolic for a short period of time being the three and a half years of the Great Tribulation.

But verse 12 here is what I'm going to start really focusing on for the next few minutes about the identity of the ten horns of the beast.

Now, we previously thought it could be the king of China, I mean the president of China, and different presidents throughout the globe, president of Russia, so forth, the big toes and the small toes being different presidents in different prime ministries.

However, that doesn't really make sense when it says that they don't yet have a kingdom.

I would say China definitely a kingdom.

I would say Russia, especially considering that the Soviet Union never really went away with, Russia is definitely a kingdom.

And do you really think that if it is presidents and prime ministers that it would not include China and Russia, the presidents thereof?

If it really is presidents and prime ministers, then you would definitely think of Putin and the president of China.

But it's not really those because they already have kingdoms, so it doesn't match the description.

These are not people who already have kingdoms.

Now think about it.

A person that already has a kingdom is a president or a prime minister in our day and time.

It used to be called kings when the Bible was written.

So it's the same thing, just a different terminology, different vocabulary for our day and time.

But if they are not presidents and kings and prime ministers, then what would they be?

And if they don't yet rule a kingdom, if they do not yet rule a nation, then what would they be?
They would be businessmen.

They would be people like George Soros, who are businessmen, who want to rule the world, who are eagerly doing everything they can to rule the world, who do want to be kings, they do want power and authority, and they are trying to rule the world.

Amen?

I believe that this is what the Holy Ghost is showing me.

And I had never thought about this before.

But it makes complete sense.

It makes a whole lot more sense than thinking that it is presidents and prime ministers, because they already rule nations.

But you've got this so-called world elite, the New World Order, the World Economic Forum, Charles Schwab, evil be his name, and the chief of the World Health Organization, and George Soros and Bill Gates and others.

They are people that are really running the show.

Those are the people who are really behind Biden.

Amen?

Those are the people that are actually all for the green agenda and communism, and publicly admit that they want to do away with the carbon fuels, the oil, the petroleum, the diesel, cars, and people. The population.

They publicly admit basically in different words that they want to take humans and turn them into robots.

These are people that look and act like supervillains.

These are evil, demonic people.

These are people that some of these may even be nephilim or full demon, some of these people.

So I fully now believe that people like George Soros, Bill Gates, Charles Schwab, and the chief of the World Health Organization, or whoever replaces him, if he goes away, whoever replaces him as the chief of the World Health Organization, whoever takes his office, whether it's him or somebody else, and other world leaders like that.

Other possibilities, and I'm not saying for sure about these, but other possibilities to help it come to a number of 10, and even more than 10, here are some possibilities who could fit into those 10 horns.

We think about Mark Zuckerberg, the founder of Facebook, which is now called Meta, and how even the city of NEOM and all other types of systems around the globe are trying to become part of that metaverse.

Facebook is transitioning over into an entirely new creature.

So Facebook is more than just a social media.

Facebook is like a CIA, world elite, new world order, information database.

A way of spying on people, a way of getting your information, a way of knowing everything you're interested in, and everybody you know, and who is your family, and who is your friends, and what do you believe, and what do you teach, and what is your religion, and what is your income, and where do you live, and where do you work, and what do you look like, upload your picture, upload where you work, where you live, who you're related to, who your friends are.

It is an information collection database, and it is transitioning over into a grid, an electronic grid of a component of the metaverse, the Borg, Star Trek, Borg community.

So then we can also think about Jack Dorsey of Twitter, and the CEOs of Google, and the Alphabet Company.

Google is much more than just one company.

You've got eBay. You've got all kinds of stuff there.

You've got the Google search engine. You've got their browser, Google Chrome browser.

You've got Gmail. You've got Alexa, and the phones, and the app stores, and all the apps, and the list just goes on, and on, and on, and on.

You've got Google in the house controlling your TV, and your burglar alarm, and your electronics, and everything in your life controlled by Google in these rich mansions that they allow Google in their home to monitor their children, to monitor their elderly, to monitor you, to tell you every step that you make in the day, and to monitor every step you make.

It's ridiculous what people turn their lives over to.

So I can definitely see people involved, such as Larry Page, and Sundar Pinchar, whatever the name is, Pinchar, whatever the name is, these different leaders of Google, I would not be surprised.

They are strong candidates for being members of the Ten Horns.

Jeff Bezos, founder and executive chairman of Amazon.

Look how Amazon has taken over the world as well, and cooperating with Google, and the ABC, the Alphabet company, and Twitter, and they're all working together in the same mind, of the same goal, of a new world order, and they admit it.

And they're all working together to bring about worldwide communism, and one world government, and they admit it.

They're all working together to suppress freedom of religion, freedom of speech, freedom of life.

They're working against Christianity, they're working against the normal sexual heterosexuality, they're working against masculinity, they're working against the family unit, husband and wife, and children.

Everything that is good and decent, they're working against, and everything that is demonic, they are working for, and they're promoting the Islam, and the communism, and the new world order.

They're promoting it, and funding it, and they will be part of Noon.

Dr. Fauci, possibility that he could be one of the ones.

And maybe somebody from the Rothschild family, somebody from the Rockefeller family, maybe even Henry Kissinger, even though he's 99 years old now.

How long will he live? Is he actually a demon and not a human?

People can live to be 99, 104, and so forth, but it's rare, and it makes me wonder, just like the Popes, and especially one of the Popes, how old he is.

It's a sign, it's a clue, that they may not be human.

What about Prince Harry, who would never inherit the throne of the UK?

He does not have a kingdom, he is not a king, he doesn't control England, and he's a communist, and he's very much in the news every day of him promoting communism and the new world order.

He wants a kingdom, he wants to be king, I bet, yes, since he's in the royal line.

So what about that possibility of him being one of the ten horns?

Perhaps somebody that rules the Blackrock Corporation, Larry Fink, perhaps somebody that rules the Vanguard Company, what about the Bildeberg Group?

And what about even Elon Musk?

A lot of people glorify and idolize Elon Musk, because it seems like he's turning against communism and the new world order.

He's saying constantly on a daily basis words that tickle the ears, that make people feel good, that make people love him and cheer him on.

But the reality is, his record shows that he has always been a liberal, a communist, and he said out of his own mouth in different words that he wants to turn humans to robots.

He is the founder of the Tesla Motor Company, and he is involved financially and other ways in space exploration, the outer space, exploring, and the rockets and all that, that technology, the electric cars.

He benefits financially from the Green Agenda.

He's the king of the Green Agenda. Come on now.

And so they are saying that he is the richest man on the planet, not counting perhaps the Vatican, but they're saying that he is the richest man on the planet.

And some of these other people I have mentioned, Bill Gates and others, I didn't mention, well, I have mentioned, but not on that particular list.

I've got to add them to my notes here. Bill Gates, very demonic person, buying up farmland in America, so forth, and involved in politics.

But he's a computer guy. He's a computer guy.

So all this comes full circle of how Saudi Arabia is building the city based upon computers, high technology, things that originated with Bill Gates, Microsoft, Apple, IBM, and how the Muslims took control of the petroleum industry.

All this comes full circle. Amen.

Henry Ford, that was the first to mass produce cars on the scale that he did.

Henry Ford was a friend of Hitler, a true friend to Hitler, promoted Hitler, funded Hitler, and wrote multiple publications in America promoting the Nazi regime.

That is a documented fact of history.

So I've given a list of possible candidates for the ten horns.

So now I would give a brief list of people who cannot be, I believe, now cannot be part of the ten horns.

And that would include Trump and Biden, Obama, Putin, the Chinese president, and the leader of the EU, the European Union, because the European Union is a kingdom.

So he already has a kingdom. So the leader of the EU is not one of the ten horns.

Nor any other president or prime minister of the past or of the future.

So when we think about who's going to replace Boris Johnson in the UK, if he does get replaced, because he's still in that office until a replacement is found.

But if anybody replaces Boris Johnson, they would have a kingdom.

So it can't be that person. It can't be Trump because he had a kingdom.

So for it, it can't be Obama because he had a kingdom.

These ten horns are people that don't have, have not had a kingdom, a nation to rule.

So they're businessmen who want to rule the world, who are trying to rule the world, that are working in cooperation with each other to rule the world.

And then Assad will appoint to them, once Assad is given power over all nations, Assad will divide the land, as the Bible says in the book of Daniel.

We're going to read that here in a few minutes in the book of Daniel.

It says that the Antichrist, the Assad, will give the land out in different portions.

He'll divide the whole earth into ten regions of his choice and say, OK, George Soros, you get that particular region of the earth, and Bill Gates, you get whatever other region of the earth, and so on and so on down the line.

Now, let's talk more about the city of Babylon and what they're doing.

I'll update on the city of NEOM.

As we said, they're promoting the Green Agenda.

Now, what I discovered this week is that they have a plan to build two huge buildings that they are calling The Line, the line, the line in the sand, The Line.

The Line will be the world's largest structure by total size, not the tallest, but the largest by total size, the world's largest structure when built.

As far as height, it will be the world's 12th tallest building, the world's 12th tallest building.

Already, the Mecca Clock Tower is already the fourth tallest building in the world right now.

The Line will be a building that will be a city encased in a building.

Think about this.

The Line is a city encased inside a building.

It is a Borg structure, even if it's not a cube.

It is definitely a Borg structure where they're turning humans to robots and is very much connected to the internet like the Borg was.

They're going to have 5G.

They're going to have all of the advanced, highest advanced dream fantasy, sci-fi fantasy technology that you saw in Star Trek and other sci-fi movies.

It's going to be that nightmare of what movie we had watched recently in the past couple of months where they take your DNA and they're going to base everything upon who you are, about whether you have been genetically altered or not.

It's going to be the sci-fi nightmare.

It's going to be two buildings.

Each building will be 656 feet wide, 1640 feet tall.

Again, 1640 feet tall and 105 miles long.

For the people that are not Americans, all this equals out to 200 meters wide, 500 meters tall and 170 kilometers long.

So it's extremely long.

Two parallel buildings right behind each other, parallel with one another.

It will look like a giant equal sign in the sand.

If you look from a satellite pictured from up in space, looking down upon the Earth, it will look like the equal sign on the Earth.

I think that that's got to be something symbolic in that that I don't know yet.

But I think that would be something symbolic.

Now, this type of structure is going to be chaos for the ecosystem of that region.

Even though they are promoting it as being nature-friendly and supposedly they're going to have all types, all kinds of trees and flowers and farms and gardens and it's going to be beautiful, beautiful, beautiful and eco-friendly and all compliant with the green agenda.

All of that is bull crap.

Because when you have buildings that tall, that wide, that long and put two of them in front of each other, that's going to entrap birds.

It's going to block bird migration.

It's going to confuse everything about nature, the wind patterns and everything in that region is going to result in chaos for the ecosystem in that region.

It will block surface air currents, animal migration, water runoff and many other things to consider.

There's another thing in Scripture here.

Let's read because I think it's going to have an impact on this.

In Revelation 17 verse 13, it says, "These have one purpose and they will give their power and authority to the evil beast (Assad)."

If you think of these businessmen, these New World Order people that I have listed, they have one purpose, one common goal.

I believe the fact that it says this is a huge clue.

One purpose, one world order, communism, world dictatorship.

They all share that purpose.

I believe that is a huge clue.

And even though they want to be the kings and rulers of the earth, they still give their power and authority to the evil beast.

Because these businessmen do believe in having one chief executive officer of the world.

And they have said that.

They have said publicly in multiple occasions in my lifetime that the New World Order would need a leader.

And they know and they understand that they can't all be the leader.

If you've got ten leaders, they can't all be.

They all understand the basic elementary principle of having a boardroom, council members.

They all understand that you can only have one chief executive officer.

And when you think of Assad, he dresses like a businessman.

He looks like a businessman.

He's all into the computer stuff.

And he's all into advancing his kingdom and his agenda and Islam and being a world ruler, taking over Israel and influencing Islam worldwide.

That's very well documented that he wants to influence Islam worldwide.

And a lot of people over the years, when I have told them that the Bible very clearly says Assad is the Antichrist, and it does, it really does.

When you look at the Greek, when you look at the Arabic, it's very clear it does say it's him.

And a lot of people over the years have said, well it can't be because Saudi Arabia hates him. Egypt hates him.

Turkey hates him.

Everybody hates him.

Everybody's against him.

So how can they worship him and honor him and how can he bring about this world peace?

Well, the Bible never says he's going to bring about world peace.

It doesn't say it.

You show me the scripture.
It doesn't say he's going to bring world peace.
There'll still be war.
The Bible's clear about that, that there will still be war after he takes power.
Come on now.
But nevertheless, of course, he would claim that he wants to bring world peace.

And all of these businessmen claim they want to make a better place for humanity and they want world peace and they want coexistence and they want everybody to be in unity and not in competition against each other.

And they say that that's the purpose of socialism, communism, is unity, coexistence, not having competition.

Everybody working together in peace and coexistence and unity.

But the reality is in communism, in communism, it is not world peace because communism has the fruit of war, death, destruction, not peace, not joy, not happiness, not prosperity.

It does not bring any good to mankind.

It just fills the pocket of the leaders, makes the leaders richer and richer and richer.

And so what has happened to Biden since he took office?

He got richer.

What happened to Pelosi as a congresswoman?

She got richer.

And all these keep getting richer by the day.

How does the Bible describe Babylon as filthy rich?

So they're not bringing goodness to the earth.

Socialism, communism does not bring goodness to the earth.

It just fills the pocket of those leaders and only a very small group of leaders.

Instead of having a congress of 200 or 500 people, it's only the whole world being led by only 11 people, the ten horns and the false, the antichrist, and then the two false prophets, that's 13 people, 13 people that will rule the world.

Instead of having a congress of 500.

So it's not a government of the people.

It's not a government for the people.

It is a government for those 13 people.

13 being also a Freemason, a very important number in the Freemason thing.

Now let's keep reading because there's something else I want to get to here.

Let's skip down to verse 16, "The ten horns which you saw, and the evil beast, will hate the harlot, the whore, and will make her desolate and naked, and will eat her flesh and burn her up with fire."

Verse 17, "For the Theos has put in their hearts to execute His purpose by having a common purpose and by giving their kingdom to the evil beast until the words of Theos will be fulfilled. The woman which you saw is the great city which reigns over the kings of the earth."

So, several things here.

At first, they're promoting and helping to build the city of Babylon.

They're working in conjunction.

The beast, the woman, the harlot, all these things are riding in conjunction, cooperating with

one another.

But something happens down the line.

Something happens down the line that turns these ten businessmen against the city.

And I believe that what that is talking about, for one thing, there's going to be several things, but one thing is that the city will be a failure overall.

I believe that even though these men are evil, I do believe that they at least believe that the city will be beautiful and successful and utopian.

It is their dream to make this.

It is their dream to accomplish this.

They really do believe that they're improving the earth, that they believe that they really do need to do these things.

And then they see the fruit of it, that it doesn't accomplish what they want it to do entirely, that it doesn't help the earth or beautify the earth, and that it's not going to be something that the people will get used to, get accustomed to, and it's going to be a failure in many different ways.

They don't understand how things really work.

Amen.

Let's keep reading, and we're going to see an example of that.

Chapter 18, verse 1.

Let's read the footnote in the AOB.

It says that in chapter 4, verse 7, and chapter 8, verse 13, angels are seen as eagles or birds.

So birds sometimes can be actually referring to angels.

So you could read this as unclean angels, demons, so forth.

Now these are unclean angels, and I believe that this is also going to be unclean people as well.

Now it calls it a prison two times here, a prison.

This city becomes a prison.

Think about that.

So they're building a city, which the line is only part of the city.

I understand that.

But nevertheless, the line being two buildings, where that part of the city is encased, enclosed into a building.

So anytime where you work at, where you live at, where you shop at, where you walk at, where you exercise, everything you do 24 hours a day, seven days a week, every day of the year, will be in the building.

You never leave the building.

And they control the doors.

They control the gates.

And all they got to do is push one button, and every door and every window in that entire structure is locked instantly.

One button.

That's a prison.

They're building a prison in the desert, and asking you to come and just voluntarily walk in and live there and never leave.

It is the Borg.

And they admit they want to connect the human brain to the computers.

They want to turn the people. It is a Borg structure.

It will not be as beautiful as what they got in the videos. It will not be.

It will be a prison for demons and people, and even for the real birds, because the birds flying into this structure trapped inside of it and between the buildings that are 105 miles long.

The bird flies in that and it's tall, 1640 feet tall.

Birds get in between those two structures and not find their way out and die.

It's going to be a bird graveyard, literally a bird graveyard in between those two parallel structures.

Wow! What a fulfillment of Scripture.

It will be a little bird graveyard.

Amazing.

Amazing.

All these things really tell us, indicates to us, the reality that the city of NEOM really is the city that it's talking about.

And let's go back, let's go down to verse 5 now, Revelation 18 verse 5.

"For her sins have piled up as high as heaven." Now we're talking about symbolically, sins being great in number, great in number, lots and lots of lots of lots of sins.

But again, piled up high as heaven being a clue of a tall structure, and things piling up and the birds piling up, stuff like this.

This is symbolism, this is clues and hints along the way here.

Even the double judgment in verse 6, "I will pay her back double and mix twice as much."

It's going to be two buildings, two structures.

And let's go down to verse 9. "And the kings of the earth who committed immorality and lived sensuously with her will cry and lament, mourn over her when they see the smoke of her burning, standing at a distance because of the fear of her torment, saying, Woe, woe! The great city Babylon, the strong city."

The strong city, the strong city. That tells me it's like a symbolism of a fortress, the strong city, a symbolism of a fortress, a city that they think cannot collapse unless they destroy it themselves.

A strong city, I think there's symbolism in that in more than one way.

"For in one hour, your judgment has come."

Now, these kings and also the ships and the people that are on the ships, "for in one hour, such great wealth has been laid waste!" And every shipmaster and every passenger and sailor and as many as make their living on the sea, stood at a distance crying."

So this is definitely a city on the coast. Rome is not on the coast.

I looked it up, Rome, I didn't write it down, but I'm pretty sure it said, is 100, oh, it's right here it is.

I wrote it in my Bible somewhere. It's right here. Rome is 100 miles from the beach.

Rome is 100 miles away from the beach, from the port.

Rome is not a coastal city. Rome is not a port city.

And Washington DC is not that great of a port city. It's not known as being a port city.

And New York City will already have been destroyed three and a half years before this happens, because what we're reading here happens on the very day that Jesus returns.

That's going to be after three and a half years of great tribulation, in addition to the two witnesses laying in the streets for three and a half days, as well as additional forty and a half

days after that of the wrath, the plagues being poured out upon the earth.
And finally, on the 1335th day, Jesus lands on earth during the Battle of Armageddon.
This is the day we're talking about here.
So New York City would have already been destroyed 1,330, well actually 1,293 and a half days before this.
But New York City is already destroyed three and a half years plus before this happens, so it can't be New York City.

Verse 13 talks about cinnamon, spice, incense, perfume, fragrance, wine, and oil, olive oil, fine wine, wheat, cow, sheep, horses, cherries, and slaves.
Saudi Arabia has slaves. They do.
And they will have a whole lot more slaves after they take captive the Jews and the Americans and the British and the Australians and so forth.
They're going to have a whole lot more slaves.
So we know that this is a coastal city, and it's a coastal city of a nation in the desert.

Verse 19, they threw dust on their heads.
Dust.
It doesn't say like ocean sand, but dust. So that's a more of a picture of a desert that is coastal.
Amen.
And this is also a Middle Eastern culture.
That's not an American culture. That's not a British culture. That's not a Russian culture.
That's a Middle Eastern culture of throwing dust on the head.
So a lot of things here talking about being in the desert, clues about being in the desert, and clues about being a coastal city.
We know that NEOM and even the line and other parts of NEOM, including Mecca, which NEOM is really actually not just one city, but rather a kingdom.
It is a kingdom.
Make no mistake about it.
It is a way of transitioning several different cities along the Australian coastline all the way from the north to the south of the Western Coast and really even deep into us and even deep into Saudi Arabia and not just on the coastline.
It is a transition of Saudi Arabia going from the kingdom of Saudi Arabia going over into the kingdom of NEOM.
We need to look at Daniel because there's a lot right there.

So let's turn to Daniel 2. There's a whole lot of clues right there in Daniel chapter 2.
And we're also going to do a look at Daniel 11 to which I did not see the words down. OK.
Going back to the top of the page, we're going to add Daniel 11 after Daniel 2 on my written notes.
OK, Daniel 2. Let me find the verse for you.
Oh, first thing I see is verse 21.
Daniel 2 verse 21. This is not what I was going to try to find. That's the first thing I see.
And it is important. Daniel 2 verse 21.
"And he changes times and eras and he appoints kings and removes them." God does. "And gives wisdom to the wise."

But there's a verse about the Antichrist changing time that may be in chapter seven.
Yeah. So that's something different. But another place in the book of Daniel, I think it's Daniel seven verse twenty five.
Let's see if we can find this. Daniel seven verse twenty five.
Yeah. Daniel seven twenty five, the Antichrist.
"And he used to speak words against the Most High and so wear out the saints of the Most High and so think to change times and law.
And the power should be given into his hand for time and time and half time." That's three and a half years.
So the Antichrist of Syria would change times and law.
That's a connection between the law and a connection with the time.
So the Mecca clock, the fourth largest, tallest building on Earth right now.
They have declared that their goal is to change the time zone by law, change the time zone all the way around the globe so that the international date line and the everything, all the time zones will be in cooperation and controlled by the Mecca clock and Mecca time.
There will still be time zones. But maybe.
But the Mecca clock will be the central place rather than London.

OK. Now, going back to Daniel 2. We see that King Nebuchadnezzar had a dream of the standing statue.
And Daniel interprets the dream for this Assyrian king.
He was a Syrian by bloodline. Nebuchadnezzar was, and language.
He spoke Assyrian and was Assyrian by bloodline.
And it says in verse forty three, Daniel two, verse forty three.
"Whereas you saw the iron mixed with clay fragments, they should be merged within the genes of humans that they should not cleave together as the iron does not mix itself with clay."
So several things here. Iron mixed with the clay.
We had a sermon a long time ago and it's on the website talking about this, how the goal is to turn humans to robots.
So we are clay. And the Bible says that God is the potter and we are the pottery and that we are the clay in God's hands.
So by human nature or by nature rather by nature, God created us as the clay and God is the creator.
We are humans or actually our spirits in a clay body. Amen.
But the New World Order, George Soros, Bill Gates, all of them and even the Saudi Arabian leaders, they want to turn humans into robot and plug us all into the Borg structures controlled by Google and Amazon and Microsoft and IBM and Apple.
So this is a mixture of human DNA, including with the fake COVID vaccines and the monkeypox vaccine and the flu vaccine and all the other different vaccines that are out there more and more and more.
How they are changed in the structure of these vaccines to have metal nanoparticles.
So we're talking about much more than just mercury. We're talking about hidden microchips that are in these vaccines.
Absolutely. As well as flesh eating creatures inside these things that could be even a so-called alien life form, a demonic life form as well as microchips.
All this is all working together in cooperation, demonic entities and computers and microchips

and robots.

All this is part of the picture in this verse.

Now, the word "mixed" here in the Arabic, the Assyrian word is Arab, Arab.

So that's a clue that is a clue that the Arabs are involved in mixing the humans with the iron.

A Borg, if you ever watched Star Trek, the Borg is where the Borg, these aliens invade or invade the human starships and turn and make the humans half human and half robot.

And that's what they want to do. And that's very clear.

But they don't cleave together well. Iron and clay does not mix together well.

So that is also a symbolism that there would be trouble within this confederation of ten leaders, trouble with one another.

They don't mix together well. They all have ultra egos. They all have a lot of pride.

There may be some competition, some disagreement among themselves about the city of Babylon and goals and how to achieve the goals.

There is some disagreement that occurs here.

So they don't, the confederation of the nations does not hold together very well.

It's all based on a house built on sand. And guess what?

They're building they're building the house on sand in the desert.

Jesus warned, don't build your house in the desert on sand. Amen.

Praise God. And that's exactly what they're doing. They're fools. They're fools.

So their their ship is on sinking sand. Amen.

Their house, their building, their sky scriptures, their structures are on sinking sand. Amen.

It won't hold together well, according to the Bible.

This will cause disagreements and fights, arguments upon themselves.

And let's face the reality, which is a wonderful reality.

Evil people eat their own. They eat themselves. They eat their own people. They fight one another.

They destroy one another. That is the reality of the Democrats and evil people.

They don't even though they say they believe in coexistence and peace and love and all this.

They can't get along with each other and they destroy themselves.

You see that constantly on Democrats.

They're just wicked people and they destroy themselves.

And they choose death and they destroy the other people that have chosen death.

Even God is going to send the wicked to destroy the wicked.

The wicked destroy themselves. Amen.

Yes, God sends the wicked to destroy the wicked. Praise God.

God is good. Look at Daniel 11. I think there's a clue over there.

Daniel 11. Verse 39.

"And he should do thus in the strong places," remember strong city, "in the strong places of refuge with a strange God, a strange God, and shall increase his glory and subject many of them and shall distribute the earth in gifts."

So a sword is given all nations, the Bible says in the book of Revelation that he's given all nations.

And so he would distribute the earth in gifts.

That means he's going to say, OK, George Soros, you have this one particular region.

Bill Gates, you have another region so long down the line until there are 10 regions of the earth and those 10 horns, those 10 leaders, which are 10 businessmen who have not a kingdom until they are given power and authority over these 10 regions of the earth.

Verse 40. At the end of the time, Assad will collide with them or collide with the King of Egypt and the King of the North, NATO, to come against him with chariots and with horsemen and with many ships.

And then he would enter into the nation of Egypt and he should enter into the land.

And one version of Daniel even adds on to verse 21, saying he should enter into the land of beauty and many shall fall, but they shall escape out of his hand, Edom and Moab and the chief of the children of Amon.

"And he should stretch forth his hand over the land."

Then it picks up in verse 42, "the land of Egypt will not escape.

And he should give or he should have the control, the dominion over the Libyans and the Ethiopians and their strongholds and of the secret treasures of gold and silver and over all the desirable possessions of Egypt.

But rumors and anxieties out of the East and from the North shall trouble him.

And he shall come with great wrath to destroy many.

And he shall pitch," here's where I want to focus on now, verse 45, Daniel 11, verse 45.

"He shall pitch the tabernacle of his palace."

Some translations say royal pavilion, "between the seas and the holy mountain of beauty.

And he shall come to his portion and none will deliver him," meaning eventually God will destroy him.

But in the meantime, during those three and a half years after the initial battles, he gains control of the different nations and then he establishes a new location.

This tells us something as well.

The city of Babylon, being in Saudi Arabia, does not mean that the king of Saudi Arabia is the Antichrist because actually this verse shows us, teaches us that the Antichrist comes from a different nation into the land where he's going to establish his new royal palace.

He's going to move out of Syria for his capital building, his White House, whatever you want to say, his parliament building, his Kremlin, his Red Square.

He's going to move out of Syria and establish himself a new palace in the desert, Holy Mountain.

When I see the Holy Mountain of Beauty, I think of Mount Sinai.

And where is Mount Sinai? It is in Saudi Arabia.

There's no doubt to that. We know that Mount Sinai is in Saudi Arabia.

There's no doubt to that at all.

So this right here tells us that he's going to move as far as his headquarters of where he resides and rules from will move from Syria because that's the context of Daniel 11.

Even the Bible commentaries tells you that he's talking about Syria in the previous verses.

So then when you come down to here, he's moving from Syria to Saudi Arabia.

Now, another clue is the phrase between the seas, between the seas.

A lot of people say that refers to the Mediterranean Sea, but the Mediterranean Sea is only one sea.

And when you look at the map of Israel, the only other sea that would be on the eastern side

is just the little tiny Dead Sea.

I don't really think it's referring to the Dead Sea.

But rather, again, if you look at the map of Saudi Arabia, you've got the Red Sea to the left, the Persian Gulf to the right, the Gulf of Aden, and the Arabian Sea, and the Indian Ocean. It's always surrounding that positioning of what I call a continent, or they don't, but it basically is a subcontinent.

I think Saudi Arabia really fits the description better than any nation on Earth without it being between the seas.

Syria doesn't really have any sea on the right-hand side of it, or the bottom of it, or the top of it.

Only on one side does Syria have the sea, the Mediterranean Sea, only to the left of Syria.

Same thing with Israel, other than that tiny little Dead Sea.

So Saudi Arabia really fits the picture and the description a whole lot more, especially in combination with the phrase the Holy Mountain.

You put those phrases together right next to each other, then you definitely have it pointing to Saudi Arabia.

But yeah, it's not the king of Saudi Arabia, because Saudi Arabia already has its royal tent already there.

So it's not the king of Saudi Arabia that is the Antichrist.

It rules out the king of Saudi Arabia, because he's coming from a different region.

He's coming from Syria, as all the Bible commentaries will tell you, that the context of the previous verses before verse 36 is Syria.

Amen.

And if he is going to pitch his new royal palace in Saudi Arabia, then where's Babylon? Saudi Arabia.

Amen.

And this also shows his ego, him exalting himself as God by taking over Mount Sinai, by making that whole region of northwest Saudi Arabia as part of this new kingdom of NEOM kingdom of Babylon.

Historically, the kings of the empires of the seven heads of Daniel, the seven heads of Revelation rather, and the different empires of the statue of Daniel, the kings of each one of those empires always dreamed of rebuilding Babylon.

And they even claim to be the new king of Babylon, every one of them. That is a documented fact of history.

Babylon never left the mind of these empires.

They want it to be the new Babylon, because Babylon was the dream for them.

Even as the tower of Babylon was the dream for them, it was the status quo.

It was the gold cup. It was the ultimate of achievements.

And they didn't want to let that go. They wanted to rebuild it and build upon it and improve it.

So, but yeah, Babylon has Assyrian DNA because Nebuchadnezzar was Assyrian in every possible way he was Assyrian.

So anytime we think of the word Babylon, we also think Assyrian.

Did I miss anything?

Think about this, the development of computers, the development of the Internet and the iron

age of factories and mass production of cars and mass production of other things. And the getting everybody addicted to the Internet and everybody getting addicted to electricity has all led up to this. This is the fruit of it. The city of Babylon, a prison for people, is all the fruit of all these things. And all nations are under captivity to some degree to the Babylonian world. The whole world is under captivity to the Babylonian mind frame, thinking that we have to have electricity, thinking that we have to have a car, we have to have this, we have to have that. All these things enslave humanity and this will be the fruit of it.

So I will be adding this new information to the city of Babylon article on the website. Give me a couple of days or so, a few days to get all this information and some links and documentation to help everybody. We'll be updating that article about the city of NEOM and putting more information, maybe even an additional article, and editing some other pages where we're talking about the Ten Horns. We'll be editing that as well, updating the website about these topics of the Ten Horns, the Ten Leaders, the New World Order, and the city of Babylon. All that, anywhere on the website where we're talking about these topics, we will edit and perfect as we continue to grow and understand. Now, these examples of what I have said for the Ten Horns are not absolute because anybody could be replaced, died, whatever. These are possible candidates for the Ten Horns. All right. So people that we are seeing trying to take over the world and they have one cause and one purpose.

OK, Brother Jared, I know you're itching to jump in there. And so anybody that on the Internet that is signed into Mixlr, please go ahead and type in your questions about anything that I have said today. And while you're typing into the Mixlr, I will have Brother Jared to contribute. OK, what you got? "I just have two small observations. One of them is a before and after picture of Jeff Bezos before Amazon. Before Amazon, he looks like a nice Jewish guy. After Amazon, he looks like Captain Jean-Luc Picard from Star Trek. I think that's on purpose." "And the other thing, there is an abbreviation prefix for mechanical that's used a lot in sci-fi works. It's M.E.C.H.A. Mecca, mecha, Mecca, mecha." Oh, really? "Yeah." M.E.C.H.A. OK, so that's an abbreviation for M.E.C.H.A. Mecca, even though it's spelled different, it's still Mecca. And it's an abbreviation in a lot of sci-fi works for the word mechanical, mechanical. So that is a clue. That is interesting right there. You got a combination, a connection between the word Mecca and mechanics, the mechanical machinery. And it's interesting and the connection to the sci-fi. That's in sci-fi that you have that an abbreviation. So you got a connection of the electronics, Mecca, all these things connected together.

OK.

Anything else?

Honey, you got any questions?

OK, we'll be back tomorrow for our weekly seventh day worship services. I thank you for listening today. Thank you for staying up at night over in Korea.

Thank you for listening wherever you may be, even if some people listen later in the day because they work a job or whatever.

And maybe even the computer system is not working right. Maybe there's more than what it says that are listening.

And then there's people maybe even listening over on talk to you, which I don't see the number in front of me.

So could be some people over there as well. But it is so hard. It is so hard today over here, even though it's cloudy.

So I see all tomorrow, eleven o'clock in the morning, Eastern time for the seventh day worship services.

Thank you for listening. God bless you. All this in Jesus name. Amen.
